SUMMERHOUSE GLAZING STYLES EXPLAINED

CONTEMPORARY STYLE

Our standard and most popular style of glazing: these windows are approx 1.5m (5ft) high and, on square/rectangular buildings, there will generally be 4 fixed windows per building which can be moved to suit your requirements. On Buckingham/Norton buildings, those with doors positioned within a wall shorter than 2.4m (8ft) or when a bi-fold door upgrade is specified; the number of windows will reduce to 2 panes.

CLASSIC STYLE

An alternative to the full length Contemporary style glazing will be our shorter Classic style window. All other characteristics remain but the panes are reduced in height to approx 0.9m (3ft) or 1.2m (4ft). Ideal if you like the Contemporary style but want to use the building for storage and don't want your possessions to be in full view.

CHALET STYLE

Similar to the Contemporary style but with the long panes split into three to give a more traditional look and feel. Also boasts two opening fanlights as standard.

COTTAGE STYLE

A modern classic, the Cottage style boasts a beautiful traditional glazing style which is designed to look like a split sash style. There will be two fixed windows and two which feature top hung openers. (* On models with the doors within a wall under 3.0m (10ft) in width the number of windows will be reduced to three.

OPTIONAL EXTRAS FOR SUMMERHOUSES

Switch from Contemporary style to 3ft or 4ft high glass Classic style	FOC
Bi-fold doors - 10ft and above only (replaces doors and 2 windows)	£800
