

4.2m x 2.1m (14' x 7') Bespoke Portslade with reverse roof pitch and optional summerhouse doors, extra height and paint finish

Diamond Potting Sheds

Every gardener would love the possibilities presented by the addition of a Diamond Potting Shed. With three distinct designs in a huge range of sizes we are confident that you will find something to delight however we can also build to order if you require something a little different (as shown in the main photo above!)

2.1m x 1.5m (7' x 5') Petworth in optional painted Loglap cladding

Interior of 3.0m x 2.4m (10' x 8') Petworth

Glass roof on 3.0m x 2.4m (10' x 8') Petworth

3.6m x 2.4m (12' x 8') Portslade

3.6m x 2.1m (12' x 7') Pulborough

Specifications

WALLS

Sturdy 47mm x 47mm (45mm x 45mm finished) vertical framework clad with your choice of:

- 16mm (12mm finished) T&G Shiplap
- 19mm (15mm finished) T&G Shiplap
- 19mm (15mm finished) T&G Loglap

FLOOR

16mm (12mm finished) T&G on 47mm x 47mm pressure treated floor joists with an option to upgrade to a heavy duty 18mm Caberboard floor. All buildings over 2.4m (8') in both directions - eg 2.4m x 2.4m (8' x 8') but not 2.7m x 2.1m (9' x 7') - are upgraded to 18mm Caberboard as standard.

ROOF

16mm (12mm finished) T&G matchboard on sturdy roof purlins and covered with a heavy duty polyester based roofing felt. On apex models we offer an option of cedar shingles or long-life felt tiles if you prefer something a little more decorative.

HEIGHTS

There is a generous internal eaves height of 1.82m (6') on all models. The internal ridge heights are stated on the product descriptions below. All external roof heights - up to 3.6m (12') gable - comply with the 2.5m maximum height restriction imposed when erecting a building under Permitted Development.

BUILDING STYLES

Portslade - This building is available in sizes from 1.8m x 1.2m (6' x 4') up to 4.8m x 3.6m (16' x 12') and boasts a fully-boarded sloping pent-style roof. There is a 0.76m (2' 6") stable door with a rim-lock as well as a slatted potting bench beneath the windows. The highest part of the roof - 2.06m (6' 9") internally on all models - sits directly above the bench making this a good option if you plan on growing taller plants atop the bench.

Pulborough - Similar to our Portslade model however the Pulborough boasts an attractive fully-boarded apex-style roof. The slatted potting bench, opening window(s) and stable door remain however the internal ridge heights vary on this style dependant upon the width of the building. On buildings up to 2.7m (9') wide the ridge will be 2.06m (6' 9") and on 2.7m (9') models it will increase to 2.13m (7"); on 3.0m (10') and 3.3m (11') models this will become 2.18m (7' 2") and on 3.6m (12') models a lofty 2.31m (7' 7")

Petworth - This ever-popular model is an upgraded version of our Pulborough with half of the roof being replaced with a unique toughened glass roof design to allow the maximum amount of light to flood in.

DOORS

All buildings feature a 0.76m (2' 6") wide box stable door which is fitted with a rimlock and handle. There is an option of switching this for a full height single personal door, half glass door, stable door, wider door or a pair of double doors. If necessary doors can even be moved in to one of the long walls alongside the windows.

WINDOWS

All Diamond Potting Sheds will boast a large amount of glass to the front (with a minimum of one opening sash) as well as to each end; the precise number of panes will vary depending upon the building width and configuration. All glass is toughened for safety.

- Choice of three building styles
- Large amount of natural light
- Option for factory-applied paint finish
- Free on-site installation
- Choice of Apex or Pent roof styles

All specifications are subject to change.

All sizes are nominal. E&OE.
