Transform your building into something truly special with the addition of our factory-applied paint finish. In lieu of the 'Golden Brown' preservative finish we will apply two coats of any Sadolin Superdec colour to the exterior of any new Diamond building for a cost of just £25 per linear ft (L + L + W + W x £25). We have colour charts in our office but please note that, due to limitations in the printing process and differences in the material, the final finished colour, when applied to your building, may sometimes appear differently to that on the printed colour chart. If colour match is critical we recommend that you source a tester pot.
