

2.4m x 1.8m (8' x 6') Alton Potting Shed

Platinum Potting Sheds

Our Platinum Potting Sheds are extremely popular with the gardener as they have been carefully designed with their needs in mind. Obviously the main purpose of this type of building is growing but we appreciate that someone with such a keen interest in the garden doesn't want an ugly building blighting the sanctuary of their garden so we offer a choice of two distinct styles which will fit comfortably in any setting.

Whichever model you choose you can be assured that we fit as much glass as possible to ensure that the maximum amount of light floods in to help your plants develop. A strong workbench is fitted beneath the windows as standard and we fit a sturdy stable door to every building to ensure that it remains a comfortable place to work.

As versatile as they are unique in their quality, both models can be used for multiple purposes other than sowing seeds. We have, for example, supplied several Platinum Medstead Potting Sheds which we have insulated and fitted upgraded to double glazed windows for local artists.

2.4m x 2.4m (8' x 8') Alresford Potting Shed

2.4m x 1.8m (8' x 6') Medstead Potting Shed

2.1m x 1.5m (7' x 5') Alton Potting Shed

Interior of Alton Potting Shed

Specifications

WALLS

Sturdy 47mm x 38mm (44mm x 34mm finished) pressure treated framing which is diagonally braced and screwed together before being clad with your choice of:

- 19mm (15mm finished) pressure treated T&G Shiplap
- 22mm (20mm finished) pressure treated T&G Loglap

FLOOR

19mm (15mm finished) pressure treated T&G on 47mm x 47mm pressure treated joists. Option to upgrade to 22mm (20mm finished) pressure treated T&G if required.

ROOF

A heavy duty green mineral polyester-based roofing felt atop 16mm (12mm finished) T&G matchboarding with roof purlins supported as necessary on sturdy roof beams. The roof incorporates a unique soffit venting system which ensures good airflow within the roofspace. If desired we can fit Onduline roof sheets in black or green for extended life.

The Alresford boasts Onduline on 16mm (12mm finished) T&G matchboarding on one side as standard with a choice of either corrugated PVC panels or toughened glass panels supported on purlins on the other side to allow light to flood in.

STYLES

There are three building configurations available:

- Alton - traditional sloping glass front with opening window
- Medstead - modern vertical front to maximise growing space
- Alresford - versatile building with a half glazed roof for maximum light

All models feature stable doors in the end wall and a bench beneath the windows which are located within the side wall however alternatives are always possible as are partitions to create a separate storage shed if desired.

HEIGHTS

All buildings feature a generous internal height with extra height being available if required:

- Alton - 1.8m (5' 11") at the rear raising upwards toward the front
- Medstead - 1.92m (6' 4") at the rear raising upward toward the front
- Alresford - 1.95m (6' 5") at the eaves raising up to a central ridge

All external roof heights comply with the 2.5m maximum height restriction imposed when erecting a building under Permitted Development.

DOORS

A single 44mm thick x 0.76m (2' 6") wide x 1.78m (5' 10") high heavy duty Framed, Lugged and Braced stable door hung on brass butt hinges and fitted with a 5-lever mortice lock and black antique door handle. A wider door is available as an optional extra is required.

WINDOWS

Given the nature of the building we purposely design it to feature as much glass as is possible for the given size.

- Alton - full width sloping glass front with opening window
- Medstead - individual split glazed front section
- Alresford - Bay of fixed windows along side wall with openers on each end wall

Both buildings also feature glass to each end to further increase the natural light which floods into the building.

- **Pressure treated Redwood floor, cladding and framing for long life**
- **Three designs to complement every setting**
- **Huge amount of glass to maximise natural light**
- **Free on-site installation**
- **Choice of Apex or Pent roof styles**

All specifications are subject to change.

All sizes are nominal. E&OE.
