

3m x 2.4m (10' x 8') Twyford with Contemporary glazing painted 'Slate Grey'

Platinum Owlesbury and Twyford Summerhouses

Whether it is used for additional storage during the colder months, or as an outdoor reception area for all your garden parties, we will build a bespoke summerhouse that ticks all the right boxes. Great in the summer - and just as wonderful in the winter - a Platinum summerhouse will make a graceful addition to any garden and will help turn your property into a desirable purchase for potential buyers.

3m x 2.4m (10' x 8') Owlesbury with Contemporary glazing'

2.4m x 1.8m (8' x 6') Owlesbury with Contemporary glazing

3m x 3m (10' x 10') Twyford with Contemporary glazing

2.4m x 1.8m (8' x 6') Owlesbury with Chalet glazing

2.4m x 2.4m (8' x 8') Twyford with Classic glazing

Specifications

WALLS

Sturdy 75mm x 38mm (70mm x 34mm finished) pressure treated framing which is diagonally braced and screwed together before being clad with your choice of:

- 19mm (15mm finished) pressure treated T&G Shiplap
- 22mm (20mm finished) pressure treated T&G Loglap
- 23mm - 6mm pressure treated Weatherboard with vapour proof barrier

FLOOR

19mm (15mm finished) pressure treated T&G on 47mm x 47mm pressure treated joists. Option to upgrade to 22mm (20mm finished) pressure treated T&G if required.

ROOF

A heavy duty green mineral polyester-based roofing felt atop 16mm (12mm finished) T&G matchboarding with roof purlins supported as necessary on sturdy roof trusses and beams. The roof incorporates a unique soffit venting system which ensures good airflow within the roofspace. We can upgrade this to Onduline roof sheets (Twyford only) or Firestone EPDM for longer life.

Both models feature a decorative roof canopy to the front of the building as follows:

- **Owlesbury** - Traditional 'hipped' ridge style with decorative supports and felt shingles to top of roof canopy
- **Twyford** - Contemporary style 'continuous' roof with underclad canopy

HEIGHTS

There is a generous internal height of 1.91m (6' 3") at the lowest point raising to 2.16m (7' 1") at the high point on all sizes. All external roof heights comply with the 2.5m maximum height restriction imposed when erecting a building under Permitted Development.

DOORS

All doors are constructed using hemlock for the greatest stability and durability, set in a solid frame with a traditional drip-cill and hung on heavy butt hinges. There is a choice of chrome, brass or black door furniture and the doors are fully glazed allowing light to flood in.

WINDOWS

All models boast plenty of glass to allow light to flood inside your building. The default position - which we are always happy to vary without additional charge - will see a 1.2m (4') wide double door to the centre of the long wall with a flanking window either side (where space permits) and one window to each side elevation. All windows are fixed although a top-hung opener can be added to any of these windows to increase internal air circulation if desired. There is a choice of different window styles:

- **Contemporary** - 1.5m (5') high glazing to allow the maximum amount of light to flood into the building
- **Classic** - An alternative to Contemporary glazing; available in 1.2m (4') and 0.9m (3') variants
- **Chalet** - Similar to the Contemporary glazing but with the pane split into three to give a more traditional appearance
- **Cottage** - A modern-classic featuring a traditional split-sash style window and matching doors
- **Georgian** - Traditional 6 pane Georgian doors and windows offer a greater degree of privacy

ALL YEAR ROUND USE

If you are planning on using the building year round then we can fit double glazed units or even fully insulate your new summerhouse at the point of installation.

- Pressure treated floor, cladding and framing for long life
- Doors and windows configured to suit
- Optional lining and insulation
- Option to change from pressure treated to quality Redwood with full paint finish to exterior
- Free on-site installation in most areas
- Wide choice of roof coverings

All specifications are subject to change.
All sizes are nominal. E&OE.

2.4m x 3.6m (8' x 12') Highclere with Contemporary glazing and optional felt tiles

Platinum Highclere and Kingsclere Summerhouses

Offering a wonderful escape during the hot summer months, a well kept garden can really add to your quality of life; where better to relax or entertain than from the comfort of a charming Platinum summerhouse?

From classical elegance to contemporary chic, our delightful range of summerhouses offer something for every location and budget. Ultimately adaptable, they can be used across the seasons and, available in an extensive range of timber finish and glazing styles, you can be sure that your Platinum summerhouse will be as individual and unique as you are.

We are happy to customise any of these buildings to create a bespoke multi-room building to suit your requirements. Please see our separate sheet for details of how we can create your perfect building.

2.4m x 3m (8' x 10') Highclere with Contemporary glazing and optional Classic Red Onduvilla tiles

3m x 3m (10' x 10') Highclere with Chalet glazing and optional Classic Red Onduvilla tiles

3.6m x 2.4m (12' x 8') Kingsclere with Cottage glazing and optional Onduvilla tiles

4.8m x 3m (16' x 10') Kingsclere with double width Contemporary glazing and optional Tapco slate-effect tiles

4.2m x 2.4m Bespoke Kingsclere multi-room with Classic glazing, optional Onduvilla tiles. Please see our separate sheet detailing these buildings.

Specifications

WALLS

Sturdy 75mm x 38mm (70mm x 34mm finished) pressure treated framing which is diagonally braced and screwed together before being clad with your choice of:

- 19mm (15mm finished) pressure treated T&G Shiplap
- 22mm (20mm finished) pressure treated T&G Loglap
- 23mm - 6mm pressure treated Weatherboard with vapour proof barrier

FLOOR

19mm (15mm finished) pressure treated T&G on 47mm x 47mm pressure treated joists. Option to upgrade to 22mm (20mm finished) pressure treated T&G if required.

ROOF

A heavy duty green mineral polyester-based roofing felt atop 16mm (12mm finished) T&G matchboarding with roof purlins and rafters supported as necessary on sturdy roof trusses and beams. The roof incorporates a unique soffit venting system which ensures good airflow within the roofspace.

If desired we can fit apex models with decorative felt tiles, the unique Onduvilla roof tile system, classic Tapco slate effect tiles or beautiful warm cedar shingles.

HEIGHTS

There is a generous internal eaves height of 1.94m (6' 4") on Highclere and Kingsclere models, raising to an internal ridge height of:

- 1.8m (6') apex = 2.16m (7' 1")
- 2.4m (8') apex = 2.24m (7' 4")
- 3.0m (10') apex = 2.24m (7' 4")
- 3.6m (12') apex = 2.24m (7' 4")

All external roof heights (up to 3.6m span) comply with the 2.5m maximum height restriction imposed when erecting a building under Permitted Development.
