Ashford Chalet

Maidstone Chalet

Dartford Chalet

The door and window position can be mirrored on the front of the Ashford and Maidstone cabins. You can choose which side the side window is positioned on all models.

(#) This building is over 15 square metres internally thus should be positioned 1m from your boundary.

Can't see what you are looking for? Ask about our bespoke design service today!

All prices are valid within a 50 mile radius and include for roadside delivery on a crane-equipped vehicle for self-assembly. All fixings and manuals are provided and the building can be installed by a pair of competent people. If required we can arrange various additional services as shown above through a number of recognised independent teams.

PVCu doors will be fully glazed whilst PVCu windows come in a choice of 3ft or 4ft high glazing (the standard option may differ from model to model but will be stated on the price matrix). By default they will be supplied in Anthracite but there is a wide choice of colours available upon request although this will increase delivery lead times.

Timber doors will be half glazed with 3ft high glass and all timber framed windows will be 3ft high as standard.

Optional extras for all Humber interlocking log cabins

| | PVCu/Timber |
|---|------------------|
| Add pair of double doors (building may need extra height) | £1,258/£567 |
| Add inward-opening tilt & turn window (3ft high glass) | £476/£238 |
| Add inward-opening tilt & turn window (4ft high glass) | £510 (PVCu only) |
| Add extra height to entire building | POA |
| Items marked with an asterisk (*) on the main pricing grid will be fitted at the point of installation without additional cost. If you opt to self build then these will be delivered to site for self-fitment with no cost adjustment made. | |
| Non standard sizes and/or extra height is available subject to an individual quotation. Any basic alterations to standard building configuration (eg removal of windows/non standard door or window position, etc.) will incur a £72 bespoke fee. | |

(**) The protective paint kit is offered as a DIY solution to ensure the best protection for your new building. It contains enough for you to apply three coats of Jotun Demidekk to the exterior. It does not include for any knotting solution, stain blocker or woodfiller that may be required.

(***) If you do not wish to apply the protective paint yourself then we can arrange for a decorator to attend your home and apply our paint kit for the cost indicated above subject to the site being within 50 mile radius and the building having a sufficient working space around to allow for safe working. The price quoted includes the cost of the kit as well as labour (the decorator is not VAT registered so no VAT is charged on this element).
